

15 October 1973

MEMORANDUM FOR: General Graham

THROUGH:

SUBJECT: Proposed Unclassified NSCID

1. Attached is a set of papers on the unclassified omnibus NSCID which Mr. Colby requested. The contents of the three papers are described in the covering memorandum which it is recommended General Graham forward to Mr. Colby.

2. advised me on Friday, 12 October, that Mr. Colby had raised the subject in the morning staff meeting and expressed an interest in getting the paper as soon as possible.

3. It is for that reason that I propose the attached papers go directly to Mr. Colby -- even though the material has not been coordinated with Paul Walsh and Don Steininger, who with the D/DCI/IC are the Management Committee sub-group tasked with this project.

4. As I note in the draft memorandum to Mr. Colby, if he generally approves the approach taken in the attached papers, the unclassified NSCID then needs to be coordinated not only with Paul Walsh and Don Steininger, but also with the General Counsel, the Office of Legislative Counsel, the Office of Security, and the Deputy Directors--plus, probably, USIB and IRAC.

5. Alternatively, the D/DCI/IC could report to the DCI at the morning staff meeting that the package has been prepared and has been submitted to Walsh and Steininger for their review and concurrence before making it available for preliminary review by the DCI.

FROM THE DESK OF

U. S. INTELLIGENCE COMMUNITY

STAT

17 Oct 1973

I believe - even at the risk of
a day or so - we should coordinate
this. If you can't get agreement
then we can so state to Colby.
Bill is so tied up that there should
be a few days available to us anyhow
before he could give this further
thought.

How about going for close of
business Friday this week?
